Each Regional Park is operated by a volunteer board. This board forms an “Authority” and enacts the bylaws and policies needed to operate their particular park. This also means that they are entirely responsible for every operational aspect of the park’s health, safety, cleanliness and maintenance. As a group, Regional Park Authorities have established a minimum standard for facilities and maintenance in each regional park. The Park Authorities are committed to ensuring that their park meets these standards.

When a Regional Park has provided the requested documentation and met the required standards to display the Accreditation Symbol, that Regional Park Authority is stating that they are meeting or exceeding the requirements of the Association, Health Region and are complying with all other regulatory bodies’ rules and regulations. This symbol means that the park will have, at the very least, the basic camping facilities available at their park for their patrons and that those facilities will be maintained to an acceptable standard with your safety and comfort in mind.

To assist you while choosing a park to fit you and your family’s needs, we have assigned a designation category to each park. There are five different categories listed with their descriptions to give you a better idea of how each park may fit your needs, based on their services and amenities.

1. FAMILY RECREATION
   offer a well-rounded family experience. Amenities or locations will vary, but the choice remains with the patron on the level of the activities and the location.

2. UNIQUE NATURAL SETTING
   usually small parks with low density camping and are located in areas that offer a look at nature for patrons looking for that experience.

3. GOLF WITH CAMPING
   these parks are predominately golf course orientated, but have a campground facility.

4. TRAVELER/LOCAL RECREATION
   are mainly located on a well travelled highway system in a smaller municipal setting and are predominantly used by the local residents for recreation, family gatherings, ball tournaments and group activities. These parks generally have open campsites during the week that would fit perfectly with the travelers.

5. LOCAL USE ONLY
   These parks tend to be used only by the local people for certain types of recreation or for family gatherings.
The Regional Park system is unique to Saskatchewan. These parks were developed by the volunteers surrounding the park’s location.

Today, there are regional parks across the province – some next to a village or town, some in the furthest reaches of rural areas and many are located in the forested areas waiting for you to choose your summer home.

Each regional park is a different size and offers differing choices of activities for you and your family. Amenities include camping, swimming, boating, fishing, sports grounds, golf courses, all levels of food services and a whole lot more. Choose your regional park with what you need to make your stay enjoyable.

One regional park is open year round offering a ski hill for the winter months and camping and fishing in the summer.

How are Regional Parks Funded and Supported?

- Some receive a bit of funding assistance from their nearby towns, village and rural municipalities
- Some receive donations in order to complete special projects like new playgrounds
- Some qualify for grants offered for the construction of capital projects
- Most of their funding is raised when you come to visit!!

The Regional Park Season Pass gains you entry into all of the regional parks and the funds from the sale of these passes stay right at the regional park where they were purchased. Your visit and the dollars that you spend at these parks keep them operating for everyone to enjoy for years to come.

Big River Regional Park
Annual Northern Lights Bluegrass and Old Time Music Camp & Festival

The Camp runs August 13-17, and offers instruction in fiddle, guitar, mandolin, bass, banjo, dobro, vocal harmony, old time piano and old time dance from some of the top-working instructors in the world. Accommodation and meals available. Pre-registration required. Check website for more details.

The 13th Annual Northern Lights Bluegrass and Old Time Music Festival Runs August 17-19. For more than 11 years this festival has featured world-class musicians including Grammy and Juno winners, artists on the verge of making it big and everything in between. Festival goers have the opportunity to not only hear the musicians perform on the main stage, but also have the chance to rub elbows or even pick a tune with them by the campfire. A truly intimate and up-close musical experience in a beautiful, family friendly environment. Rustic camping with room for large RV’s included with ticket.

Ogema Regional Park
Ogema is home to Saskatchewan’s only full service tourist train operation, Southern Prairie Railway. Southern Prairie Railway kicked off in 2012 after the many volunteer hours to purchase and fully restore the 44 ton diesel engine, the 75-person passenger car as well as the baggage car and caboose. Tours run from May to October every Saturday and Sunday. The Heritage tours are about 1.5 hours, and Specialty tours vary in length. Specialty trains include: Horseback Train Robbery, Pitchfork Fondue, Stargazer, and the very popular All Day trip to end the season. Access to the Deep South Pioneer Museum is included in every ticket, a must see for visitors to the area. Charters are also available upon request. For more information, and to purchase tickets online please check out our website, www.southernprairierailway.com.
