

## **Saskatchewan Regional Parks Association Scholastic Award for Student Employees**

Saskatchewan Regional Parks Association recognizes the contribution of our community builders of tomorrow.

The growth of our Regional Parks is an example of the achievements of people working together in their own communities. Regional Parks are a vital part of rural Saskatchewan providing employment and economic benefits to community businesses.

Students have always played a major role in regional parks – first as children enjoying the facilities with their parents, then as employees in perhaps, their first job. Students who are employed at their local regional park retain that “ownership” that keeps them involved in local communities as adults. Regional parks hope to encourage those qualities of good citizenship and cooperation through this Bursary program.

**Amount of Award - \$1500 annually. (Six Bursaries available within the Province)**
